SUMMARY

Final-year CSE undergraduate (CGPA 8.4/10) with hands-on experience building full-stack web applications, B2B SaaS platforms, and real-time systems using Next.js 15, React 19, Node.js, Express, TypeScript, PostgreSQL, and MongoDB. Completed a frontend development internship at DRDO (Ministry of Defence) and independently shipped live full-stack products spanning multi-tenant SaaS and financial analytics. Solved 350+ DSA problems on LeetCode. Seeking a Software Development Engineer (SDE) role.

EDUCATION

Guru Tegh Bahadur 4th Centenary Engineering College (GGSIPU) — New Delhi, India

B.Tech in Computer Science & Engineering | CGPA: 8.4 / 10 | 2023 – 2027

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML5, CSS3

Frontend: React 19, Next.js 15 (App Router), Redux, Zustand, TanStack Query, Tailwind CSS, Radix UI, ShadCN UI, DaisyUI, GSAP, Vite

Backend & Real-Time: Node.js, Express.js, REST APIs, Server Actions, WebSockets, Socket.io, WebRTC, Stream (Chat/Video API), MVC Architecture

Databases & ORMs: PostgreSQL, Neon (Serverless Postgres), MongoDB, Mongoose, Prisma ORM (v6), SQLite

Auth & Security: Clerk Auth, NextAuth, Scalekit (SSO/WebAuthn/Passkeys), JWT, bcrypt, HMAC Signature Verification, Arcjet

Platforms & Tools: Git, Vercel, Render, Inngest, Postman, Figma, Razorpay API, Resend (Email API), Gemini AI

Core CS Concepts: Data Structures & Algorithms, System Design Basics, OOP, Operating Systems, Computer Networks, DBMS

WORK EXPERIENCE

Frontend Development Intern — DRDO, Scientific Analysis Group

June – July 2025 | New Delhi, India | HTML, CSS, JavaScript, REST APIs, Python, LaTeX, Ollama AI (Phi-3 Mini)

- Designed and developed a responsive, multi-page frontend for an IEEE Document Formatter tool, including login/signup, file upload, and a dual-panel live editor with real-time LaTeX-compiled PDF preview.
- Integrated the frontend with backend REST API endpoints to enable AI-powered content generation (Ollama Phi-3 Mini) and IEEE-compliant PDF output, collaborating cross-functionally with a team of 3.

PROJECTS

EchoDesk — Enterprise B2B Support Platform & Embeddable Chatbot Engine | [Live](#) | [GitHub](#)

Next.js, MongoDB, Mongoose, Scalekit (SSO/Passkeys), Razorpay, Google Gemini AI

- Built a multi-tenant B2B SaaS platform enabling custom RAG chatbot deployment via a lightweight, zero-dependency client-side JavaScript widget (chatbot.js).
- Developed a server-side knowledge-ingestion engine parsing uploaded PDFs (pdf-parse) and crawling external URLs (html-to-text) into context-aware payloads for Gemini-powered chat responses.
- Integrated Scalekit enterprise SSO and passwordless WebAuthn/Passkey authentication paired with Edge Middleware to enforce multi-tenant database isolation across organizations.
- Secured subscription billing using the Razorpay REST API and validated incoming event payloads with SHA-256 HMAC cryptographic signature verification.

FinSight — AI Financial Intelligence & Analytics Platform | [Live](#) | [GitHub](#)

Next.js 15, PostgreSQL, Neon, Prisma ORM, Inngest, Google Gemini AI

- Engineered a financial analytics application utilizing Next.js 15 Server Actions, PostgreSQL (Neon), and Prisma ORM v6 with Zod schema validation on all data mutations.
- Developed an automated Month-over-Month (MoM) Anomaly Engine detecting category-level spending spikes exceeding 30% relative to prior-month benchmarks.
- Implemented Inngest event-driven background queues for automated monthly budget burn-rate tracking and email notification triggers via the Resend API.
- Integrated Arcjet middleware to protect sensitive financial API endpoints against automated bot attacks, rate limits, and malicious request patterns.

ACHIEVEMENTS & CERTIFICATIONS

- DSA Supreme 3.0 — Certificate of Completion, Code Help by Love Babbar (Jan 2026, Serial No. 4147WVAI)
- Solved 350+ problems on LeetCode with strong command of arrays, trees, graphs, dynamic programming, and sliding window techniques.
- Participated in 15+ hackathons with Top 5 finishes in 5+, including Top 10 at CodeZen 2026 & 2025 and Top 8 at Build X: NSIT.
